

Flight 77 – Where Is The Plane?

It has been almost six years since September 11, 2001 at this writing (May 6, 2007), and there still has not been any more information forthcoming from the Bush Regime about what really happened on 9-11-2001. As I write this, I am listening to (and simultaneously downloading over 1,400 radio programs) Genesis Communications Network Radio Network's "The Power Hour" interview with David Ray Griffin author of the book "The New Pearl Harbor" recorded on July 21, 2004. This particular archived radio program discusses numerous inconsistencies with the official US Government's stories and explanations of what happened that day. There is an axiom in Scientology which states:

"A lie is a second postulate,¹ statement, or condition designed to mask a primary postulate which is permitted to remain".² – Scientology axiom # 36

There is ample reason to believe that the government is lying to us – not only because we have been lied to before – but because the explanations simply do not fit the physical evidence. The official scenario proposed by the government fits the definition of a lie in the above axiom. I must qualify this statement with the following statement from a New York court, which warned of the dangers of using circumstantial evidence:

"The danger with the use of circumstantial evidence is that of logical gaps; subjective,³ inferential⁴ links of low probability, or insufficient degree".⁵ – People vs. Cleague 22 NY2d 363, 367, 292

In my analysis of the situations – and particularly in my book "[Land of Childhood's Fears](#)" which deals with the lies we were told about the Vietnam War, I examine the facts very carefully, and when I don't have physical evidence to prove my allegations, I say nothing unless I have personal knowledge of the facts. It is apparent that the government stories about 9-11 were not scripted by people who were cognizant of the facts, and all the evidence – both physical and forensic evidence and eyewitness testimony – seems to indicate that the stories were scripted well in advance of the attacks.

"The workability of a postulate is established by the degree to which it explains existing phenomena [which is] already known; by the degree that it predicts new phenomena which when looked for, will be found to exist, and by the degree that it does not require that phenomena which do not exist in fact, be called into existence for its explanation."⁶ – Scientology Logic #19

I have researched the events of September 11th ever since that fateful day. Most of my Web site at www.Net4TruthUSA.com is devoted to exposing an interminable litany of government lies, and is by no means restricted to the events of 9-11. The overwhelming *physical* evidence – that is, the evidence that was permitted to be collected – tells anyone with a modicum of intelligence that there is a lot more to the story than a disgruntled cave-dwelling "radical" Islamist camel-driver orchestrating the most ingenious terrorist attack in modern history, right under the nose of the most sophisticated intelligence network in human history. Sorry folks; whatever you choose to believe in order to make yourselves feel comfortable in the notion that your government is NOT what your "gut-feeling" is telling you, simply doesn't pass even the rudimentary tests of verity. Whatever you see on the NEWS – ABC, CBS, MS-NBC, CNN, *et al.* is simply a LIE by even rudimentary scrutiny by a half-wit.

Certainly, the true history of the Pearl Harbor Attack covered most eloquently in Howard Zinn's book "*A People's History of The United States*", should give anyone ample reason to call the government stories and the 9-11 Commission Report "bullshit", and feel totally justified in making the allegation.

What happened to the airplane that supposedly hit the Pentagon? What we do know for a fact is that there was no aircraft debris – stuff that would have survived even the hottest fire, such as the landing gear and the engines – at the "crash scene". If flight 77 did NOT hit the Pentagon as alleged by the government, then I have to ask the questions that are begging:

Where did flight 77 go, and **where the hell are the passengers and crew?**

Why did the FBI seize all the video tapes from local businesses?

Where are the surveillance tapes? (digital recordings – the Pentagon is state-of-the-art).

The allegation here is so serious that I am loathe to make it – the crime is so heinous and dastardly that it defies definition by any heretofore-known jurisprudence – but if there is no debris from flight 77 extant at the Pentagon, then it is 100% certain that IT WAS NOT A PLANE THAT HIT THE PENTAGON.... And if Flight 77 did NOT hit the Pentagon, then it is also safe to assume that it did not disappear over the Bermuda Triangle, that the plane is *somewhere*, and that "*somewhere*" is probably at the bottom of the ocean, along with passengers and crew, and that it GOT THERE via a little-known military capability called "Global Hawk" – in which a military fighter jet can electronically seize the flight controls of any commercial flight and steer the plane anywhere it can go with the available fuel on board. If flight 77 did NOT hit the Pentagon as alleged by the government, then the plane was hijacked by the government, and the passengers and crew were MURDERED, as part of the "collateral damage" of the plot to carry out a *False Flag Operation* in order to have the "*New Pearl Harbor*" required to rally the American People behind the invasion of Afghanistan and Iraq.

The FACT of the matter is that the Pentagon has hundreds of high-resolution surveillance cameras – not the cheap-o cameras like they have at the 7-11s – but high resolution digital cameras that would have caught the plane as it hit – from multiple angles. The fact that the government released this six-frame *bogus* video done with Adobe Photoshop by a nine year-old, is an insult to any 4th-grader with a Web-cam, and is proof enough for me to allege with a certainty that they are hiding the truth from the American People – and that high-placed officials within the government are complicit in the attacks. THIS IS TREASON of the highest order and the penalty for treason during time of war – especially if you did it to START a war – according to the Uniform Code of Military Justice (UCMJ) is DEATH BY FIRING SQUAD.

I really don't give a rat's ass if the President or the Pope are co-conspirators in the attacks, and just as it is with any civil petty crime or felony, participating in a cover-up of a crime or impeding the investigation of a crime makes one an ACCOMPLICE, and JUST AS GUILTY as the criminal who actually perpetrated the crime. In such a case, justice can ONLY be served if the perpetrators, co-conspirators, and accomplices are hung by the neck until dead from the same gallows – or slowly tortured to death in full view of the public.... And that should serve as an example to any other aspiring traitors that they surely will not live to enjoy the fruits of their treachery.

I am a Christian, and I am a minister, and I am not proud to say that I have no forgiveness and no sympathy for traitors – especially those who could have perpetrated such an unconscionable and heinous act. On second thought, I would turn over the guilty parties to the families of those who perished, and let them do what they collectively decide to do to those rat bastards.

It is time, ladies and gentlemen – it is time to de-fund this War Machine in Washington, DC. Every war this country has been involved in since World War I has been CONTRIVED, and every war since 1914 has been fought for bullshit reasons. Adolph Hitler should have been shot in the face with a .45 the MINUTE "*Mein Kampf*" was published. The authors of the "*New World Order*" should be dealt with in like manner.

There is no question that there is a culture of terrorism in the Middle East. Over the last 20 years or so, we have permitted the importation of the *people* who practice this terrorist culture as their RELIGION – and that religion is *Fundamentalist* Islam. Author Craig Winn has done a 10-year study and wrote a 1,000-page book titled [“Prophet of Doom”](#) that every American ought to read.

It is OBVIOUS that the Quran is NOT “Holy Scripture”, as it is a TERRORIST MANIFESTO, and the religion is primarily a demented psychopath’s incoherent rants and justifications for every civil and war crime imaginable. This may seem like a strong allegation, but before you jump to conclusions that I am exaggerating, go get a Quran and read it and see if [“Prophet of Doom”](#) is an accurate representation of what is presented as the tenets of the Islamic religion or not.

Please pardon the segue’, but the diversion is warranted, as all of these things are inter-related and inter-dependant. The physical wars are a reflection of a *spiritual* battle. There is a *satanic* spirit behind all of this, and George W. Bush, Dick Cheney, and the entire bunch at the White House are asshole-deep in all of it – what with the Bohemian Grove, Skull & Bones, and the “New World Order”, *et al.* And don’t forget Larry Silverstein, who profited to the tune of seven billion dollars of insurance money paid by an insurance company who feigned a court battle on the basis of “Act of God” (blasphemous bastards), and paid for both towers when the actual cause of the collapse (if it was steel fatigue as alleged – or whether it was explosives placed months earlier in a planned controlled demolition) has never been proven or disproven forensically.

If we are ever to be the free people our Founding Fathers intended when they penned the US Constitution and the Bill of Rights, we must stand up and DEMAND a NEW and INDEPENDENT INVESTIGATION of the terrorist attacks of 9-11. The hearings should be televised and Web-cast live, and the investigating body should have full subpoena power – including the ability to demand that all “classified” documents – including those documents and evidence of the JFK assassination, and the power to imprison those people who do not comply with those subpoenas – even if he is the President. Those who are found guilty beyond a reasonable doubt according to civil jurisprudence should be summarily and publicly executed.

At the same time, we must RID this country of the TERRORIST religion of Islam. A terrorist manifesto is NOT a religion just because someone SAYS it is a religion – or because someone practices terrorism as a religion. Fundamentalist Islam is a terrorist manifesto with a false god (which is really a rock) called “Allah” (proper noun), and the lies and the deceptions that the mainstream media – and even the Catholic Pope – has permitted to be perpetrated on the American people MUST be exposed. At the risk of being accused of being “un-American”, for the reason that Islamic FUNDAMENTALISM is responsible for the mentality that sanctifies terrorist Jihad⁷ as a guarantee to paradise is a CLEAR AND PRESENT DANGER to the security of the United States, and those who profess to be Muslim should be – for our national security – be summarily deported from this country. Those who preach terrorism in the Mosques in this country should be seized by the FBI, put on trial for sedition and treason, and if found guilty, should be dealt with in the same manner as one deals with traitors in the military.

Finally, those who are not either BORN citizens, or legally nationalized citizens of the United States should NOT enjoy the same Constitutional protections as those who ARE.... And those of us who have served in the US Military and have fought honorably in defense of this country should be afforded additional protections and guarantees over and above those who are citizens, but have NOT served.

Because the American people are too wrapped-up in mindless ball games, soap operas, and video games, I am not holding my breath waiting for any sanity to prevail. However, I have spoken my piece; I have sounded the alarm as have so many others, and ultimately, we will all end up with the government that the majority of those who are the weakest links in the chain of vigilance will permit. God help us!

⁷ Jihad – “holy war”.
