

The UberMenchen (The Super Men)

"There is nothing new under the sun" – Ecclesiastes 1:9 KJV

Truly, the "gay" movement in America is nothing new. The homosexuals in Germany as a political force were instrumental in bringing Adolf Hitler to power. The infamous "Brown Shirts" were led by, and the leaders (above the rank of Sergeant) were mostly homosexual pederasts.¹ The Brownshirts were a tightly knit political force, much like the "gay community" and the "women's liberation" movement in this country. The power that united them, and made them a formidable political force, was their desire for sexually deviant and socially immoral behaviors. Most of them were also Occultists to one degree or another.

There can be no doubt in anyone's mind, who has any spiritual discernment whatsoever, that what we see unfolding in the United States today, bears an eerie sense of *Deja-vu* to the events of Weimar Germany, just prior to Hitler being elected Chancellor of the Fatherland. Certainly, there are enough sexual deviants (gays, pederasts, and pedophiles), and murderers (abortionists and those who keep them in business) among us, that constitute a formidable political lobby. Sometimes I wonder if a group of people practicing child sacrifice (which is really what *abortion* is) could not be protected under the 1st Amendment! We're getting close to that point, because lack of God as a moral anchor, and the acceptance of moral relativism and situation ethics have clouded our national judgment.

It is not enough, dear readers, for us as individuals, to lead moral and ethical lives. Morality, which I have defined in several of my books as *"an amalgam of the ethics of individuals in a society"*, is a pile of shifting sand. If our society, and indeed, the whole of Western Civilization is to survive into the next century, we - "The Silent Majority", as Ronald Reagan called us, must stand up, be counted, fight for what we believe in, and know to be true. We must resist evil at every turn, because it seeks to devour us body and soul. We must stand against the evil in our midst, and as Paul said in the book of Romans, *"...having done all, to stand"*.²

The early Nazi movement distinguished between "effeminate" homosexuals, and those "masculine" homosexuals who were really pedophiles on the "down low" much like the NAMBLA³ organization in the United States.

The Organization "Skull & Bones" of which every US president of the last 50 years except John F Kennedy and Ronald Regan have been members has roots in the Nazi Brownshirts.

As to what causes a man or a woman to prefer the same sex is a matter of debate, and beyond the scope of this article.
